

Built Stronger to Last Longer

Save Money With Superior Strength

- Built tough for heavy-duty hauling.
- Designed for extra strength without adding weight.
- Precision assembled for dependable service.
- Packed with features for smooth loading and unloading, simple operation, and trouble-free travel.
- Conveniently located hydraulic controls.
- Easy incline tailgates — ideal for small-tire rolling equipment.

Equip Your Muv-All With Our Many Options

- Single or double drop deck levels.
- Mechanical or hydraulic detachable goosenecks.
- Rear ends with hydraulic tails or conventional flatbacks.
- Goosenecks that are square or sloped to the drop areas.
- Remotes for winches.
- Standard or expandable sides for wide loads.
- Self-contained hydraulic power supplies.
- Standard or hydraulically operated front gooseneck ramps.
- Tandem, tri-axles, and flip axles.

Palomino Financial Services

Providing leasing options for businesses to finance new and/or used Muv-All equipment trailers. Utilize our leasing options to purchase your equipment on financial terms that work for you.

Financial Benefits of Equipment Leasing

- Minimal initial investment needed to supply your business with the most modern equipment.
- Protect your cash flow by keeping your credit line open, which means you have additional funds available without having to pursue additional financing.
- Leverage future earnings to enhance your business now.
- The leased equipment is its own collateral — you don't need to tie up other assets.
- Benefit from the tax advantages of leasing.

Our Company

With over 75 years of manufacturing experience, Palomino Manufacturing Corporation, based in St. Martin, Minnesota, is a 'power house' for innovative and pioneering industrial products, which includes the Muv-All Lowbed trailer series.

Our Products

Muv-All Trailers are built with an abundance of load-proven and road-tested components. Palomino's engineers combine advanced design and materials to provide our customers with products that get the job done.

Muv-All. Built stronger to last longer.

Service and Parts

Palomino Manufacturing is dedicated to meeting your needs. We stock name brand parts for your Muv-All trailers and most other makes and models to help you get back on the road. We have lights, brake parts, ABS parts, suspensions, shocks, valves, air chambers and many other replacement parts that you may need.

Experienced parts sales coordinators are available to help you find the part you need to keep running.

WHY BUY A MUV-ALL?

From one end to the other, Muv-All Equipment Trailers have quality that shows. In 1981, Muv-All pioneered the use of aluminum side expandables on low-bed equipment trailers.

FEATURES OF MUV-ALL TRAILERS INCLUDE:

- HSLA steel beams that are more forgiving under load, and are easy to service
- 1 1/2" diameter tail hinges are beefed up by 50% for tougher, more reliable operation
- Pre-arched beams and custom-designed crossbars for greater beam life
- Optional double-screw fastened wood floors, sealed all around, add to usefulness and extended floor life
- Structurally integrated standard steel floor — a Muv-All exclusive — helps reduce floor bending between x-bars

THE TRUE COST OF A TRAILER

Our years of experience and attention to details cultivate bigger dividends to the perceptive operator. The initial cost of the trailer, what's spent on maintenance, the revenue it generates, along with the trade-in allowance, all determine the actual value of a trailer. At Muv-All, we call it "Proof of Profitability".

SINGLE DROP EQUIPMENT

STANDARD SPECIFICATIONS

Lengths	Up to 53 feet
Capabilities	Up to 100,000 lbs.
Suspensions	Standard with spring; air ride available
Floor	Steel standard; apitong is optional
Wheels	8.25 x 22.5 hub piloted steel
Tires	255/70R 22.5

DOUBLE DROP EQUIPMENT

STANDARD SPECIFICATIONS

Lengths	Up to 53 feet
Capabilities	Up to 70,000 lbs.
Suspensions	Standard with spring; air ride available
Floor	Steel standard; apitong is optional
Wheels	8.25 x 22.5 hub piloted steel
Tires	255/70R 22.5
Tail	11' telescoping tail or 12' folding tails are available as standard
Axles	25,000 lb. capacity each, 3 axle configurations available
Finish	Sandblasted, primed and painted

Muv-All Double-Drop Equipment-Hauling Lowbed Trailers feature optional aluminum side extensions that allow the trailer to expand up to 13 feet wide. The aluminum sides have been market-proven since 1981. They really work! They are easy to operate because we've overcome problems associated with corrosion found in other expandable side designs.
